

Publication Ethics and Publication Malpractice Statement

European Chemical Bulletin (ECB)

The Publication Ethics and Publication Malpractice Statement of ECB is based on three documents developed by the Committee on Publication Ethics (COPE), namely the CODE OF CONDUCT FOR JOURNAL PUBLISHERS, CODE OF CONDUCT AND BEST PRACTICE GUIDELINES FOR JOURNAL EDITORS, and COPE ETHICAL GUIDELINES FOR PEER REVIEWERS.

These documents are available free of charge on COPE's website at <http://publicationethics.org>.

ECB declares that it adopts the guidelines of COPE, and editorial decisions are not affected by the origins of manuscripts, including the nationality, ethnicity, political beliefs, race, or religion of the authors. Decisions to edit and publish are not determined by the policies of governments or other agencies outside of the journal itself.

Duties of Publisher

- set, communicate, and review journal policies
- protect intellectual property and copyright
- respect editorial independence and support editorial work
- publish corrections, clarifications, retractions, and content
- publish a description of the peer review process
- provide a declared mechanism for authors to appeal against editorial decisions
- ensure that commercial considerations do not affect editorial decisions

Duties of Editors

- guard the integrity of the published record
- ensure a fair, appropriate, timely, and confidential peer review process
- pursue reviewer, editorial, and author misconduct
- strive to improve the journal quality and to meet the need of authors and readers
- provide clear description to authors and peer reviewers what is expected from them
- publish submission and acceptance dates for articles
- provide new editorial board members with guidelines on everything that is expected of them and should keep existing members updated on new policies and developments
- act in the case of suspected misconduct or if an allegation of misconduct is presented
- pursue plagiarism
- respond promptly to complaints

Duties of Reviewers

- assist editorial decisions and may also assist authors in improving the manuscript
- manuscript received for review must be treated as confidential document
- respond in a reasonable time-frame
- declare any potentially conflicting or competing interests
- follow journal's policies
- should identify relevant published work that has not been cited by the authors
- conduct a review objectively, and provide a review, which is based only on the content of the manuscript

Duties of authors

- ensure that the submitted work is original, not plagiarized, and has not been published elsewhere
- follow the applicable copyright laws and conventions
- avoid multiple, redundant or concurrent publication
- present an accurate account of the work performed and an objective discussion of its significance
- provide sufficient detail of the research work and references to permit others to replicate the work
- provide a proper acknowledgement of the work of others
- disclose relevant funding sources and any existing or potential conflicts of interest
- ensure that all co-authors have seen and approved the final version of the manuscript and have agreed to its submission for publication
- assure that unusual chemical hazards inherent in their use are pointed out in the manuscript
- promptly notify the journal editor if a significant error or inaccuracy is discovered in the published work and cooperate with the editor to correct the manuscript
